

The Eyewear™ Tag

RF Version

AM Version

Specifically designed for sunglasses and prescription glasses, the Eyewear Tag is the most effective one-piece anti-theft device available. Equipped with a powerful patented torque-controlled locking system, it tightens on to the eyewear, keeping the glasses safe from theft without any risk of damage.

With easy application and release, the lightweight design of the Eyewear Tag will always allow you to showcase your merchandise in the best possible light.
